Furthermore, the Nomination Committee proposes that Grant Thornton Sweden AB is re-elected as auditor. Grant Thornton Sweden AB has informed that Per Kjellander will continue to be appointed as the responsible auditor.

Item 12: Resolution on authorization regarding issues

The board of directors proposes that the annual shareholders' meeting resolves to authorize the board of directors, up until the next annual shareholders' meeting, at one or several occasions, with or without deviation from the shareholders' preferential rights and with or without provisions regarding contribution in kind, set-off or other conditions, to issue shares, convertibles and/or warrants. The reason for why a deviation from the shareholders' preferential rights should be possible is to enable the company to source working capital, to be able to execute acquisitions of companies or operating assets as well as to enable new issues to industrial partners within the framework of partnerships and alliances. The total number of shares that may be issued (alternatively be issued through conversion of convertibles and/or exercise of warrants) pursuant to the authorization shall not exceed 4,058,554 shares, which corresponds to a dilution of approximately 10 per cent calculated on the current number of shares. In case the authorization is used for a new issue with deviation from the shareholders' preferential rights, the issue shall be made on market terms.

Item 13: Resolution on implementation of a warrant program by way of (A) directed issue of warrants; and (B) approval of transfer of warrants

The board of directors proposes that the annual shareholders' meeting resolves to implement a warrant program for employees and consultants in the company based on issue and transfer of warrants (the "**Warrants Program 2024/2027**").

To implement the Warrants Program 2024/2027, the board of directors proposes that the annual shareholders' meeting resolves on (A) directed issue of warrants; and (B) approval of transfer of warrants, on the following terms and conditions:

A. Directed issue of warrants

A maximum of 300,000 warrants shall be issued for the Warrants Program 2024/2027.

With deviation from the shareholders' preferential rights, the right to subscribe for the warrants shall only vest in a wholly owned subsidiary to the company (the "**Subsidiary**"). The reason for the deviation from the shareholders' preferential rights is that the warrants shall be used within the Warrants Program 2024/2027.

The Subsidiary's subscription shall be made at the latest on 30 June 2024, with a right for the board of directors to prolong the subscription period.

Over subscription cannot occur.

The warrants shall be issued to the Subsidiary against cash consideration which shall correspond to the warrant's fair market value calculated in accordance with the Black Scholes formula. The calculation of the fair market value of the

warrants shall be established by ÖhrlingsPricewaterhouseCoopers AB in connection with the expiration of the measurement period on 27 May 2024. Payment shall be made in connection with subscription.

Each warrant shall entitle to subscription of one share in the company. Subscription of shares by virtue of the warrants may be effected as from 1 June 2027 up to and including 30 June 2027.

The subscription price per share shall correspond to 200 per cent of the volume weighted average price according to Nasdaq First North Growth Market's official price list for shares in the company during the period as from and including 17 May 2024 to and including 27 May 2024. However, the subscription price cannot be less than the share's quota value. The subscription price shall be rounded to the nearest whole öre, whereupon 0.5 öre shall be rounded upwards. The amount that exceeds the share quotient value shall be added to the free share premium reserve. The subscription price and the number of shares that each warrant entitles right to subscribe for are subject to customary recalculation in the event of a split-up or consolidation of shares, rights issue etc.

The shares issued upon utilization of a warrant shall confer right to dividends the first time on the record date for dividends that occurs immediately following effectuation of subscription to such extent that the share has been recorded in the company's share ledger as interim share.

In case all warrants are utilized for subscription of new shares, the share capital will increase with SEK 30,000.

B. Transfer of warrants

The Warrants Program 2024/2027 shall principally be carried out in accordance with what is stated below.

The Subsidiary shall have the right, on one or several occasions, to transfer the warrants to employees and consultants in the company in accordance with the terms and guidelines set forth below. Transfer to participants under the Warrants Program 2024/2027 shall be made against cash consideration which shall correspond to the fair market value of the warrant calculated in accordance with the above. According to a preliminary valuation, the market value of the warrants corresponds to approximately SEK 0.32 per warrant (assuming a share price of SEK 7.60, a subscription price of SEK 15.20 per share, a risk free interest of 2.66 per cent and a volatility of 30 per cent), calculated in accordance with the Black Scholes formula.

The board of directors of the company shall resolve upon allotment to participants in the Warrants Program 2024/2027, whereby participants in each category listed below can be offered up to the maximum of the number of warrants listed below:

- | | | |
|-----|---|---|
| (a) | CEO | a maximum of 100,000 warrants |
| (b) | Other senior executives
(4 persons) | a maximum of 40,000 warrants per person |
| (c) | Other employees/consultants
(approximately 40 persons) | a maximum of 20,000 warrants per person |

The number of warrants offered may never exceed the maximum number of warrants in the Warrants Program 2024/2027.

Allotment is expected to take place no later than June 2024.

A participant can subscribe for a lower number of warrants compared to what is offered to the participant. Over subscription cannot occur.

Right to allotment in the Warrants Program 2024/2027 requires that the participant at the relevant time of allotment at the latest, holds a position in the company or has signed an agreement regarding it and has not, at such time, informed or been informed that the employment or assignment will be terminated.

For participants in other jurisdictions than Sweden, it is implied that transfer of warrants is legally possible and that transfer, in the board of director's opinion, can be carried out with reasonable administrative and financial efforts at their established fair market value. The board of directors shall be authorized to adjust the terms and conditions of the Warrants Program 2024/2027 to the extent required in order for allotment of warrants to participants in other jurisdictions, to the extent practically possible, to be carried out under the same conditions imposed by the Warrants Program 2024/2027.

Other information regarding the Warrants Program 2024/2027

The reasons for the implementation of the Warrants Program 2024/2027 and the deviation from the shareholders' preferential rights are to be able to create possibilities for the company to retain competent staff through the offering of a long term ownership engagement for the employees and consultants in the company. Such ownership engagement is expected to stimulate the employees and consultants in the company to an increased interest for the business and the earnings trend as well as to increase the feeling of connectedness with the company.

Since the warrants in the Warrants Program 2024/2027 will be transferred to the participants at the fair market value, the company's assessment is that the company will not incur any social costs in relation to Warrants Program 2024/2027. The costs related to Warrants Program 2024/2027 will hence only be composed of limited costs for implementation and administration of the program.

Per the date of the notice, the number of shares in the company amounts to 36,526,989. In case all warrants issued within the Warrants Program 2024/2027 are utilized for subscription of new shares, a total of 300,000 new shares will be issued, which corresponds to a dilution of approximately 0.81 per cent of the company's share capital and votes after full dilution, calculated on the number of shares that will be added upon full utilization of all warrants issued under the Warrants Program 2024/2027. The dilution would only have had a marginal impact on the key figure earnings per share for the full year 2023.

There are currently incentive programs in the form of three warrants programs outstanding in the company pursuant to which in the aggregate 900,000 new shares may be issued. If all existing incentive programs that are outstanding and the proposed Warrants Program 2024/2027 are exercised in full, in the aggregate 1,200,000 shares will be issued, which corresponds to a dilution of approximately 3.18 per cent of the company's share capital and votes after full dilution, calculated on the number of shares that will be added upon full exercise of all outstanding incentive program and the proposed Warrants Program 2024/2027.

The above calculations regarding dilution are subject to re-calculation of the warrants in accordance with the customary recalculation terms included in the applicable warrant terms.

The proposal of the Warrants Program 2024/2027 has been prepared by the board of directors together with external consultants.

The board of directors' proposal in accordance with Sections A-B above shall be resolved upon as one resolution by the meeting.

Particular majority requirements

For valid resolution on the proposal pursuant to item 12, the proposal has to be supported by shareholders representing at least two-thirds of the votes cast as well as of all shares represented at the meeting. For a valid resolution on the proposal pursuant to item 13, the proposal has to be supported by shareholders representing at least nine-tenths of the votes cast as well as of all shares represented at the meeting.

Duty of disclosure at the annual shareholders' meeting

The shareholders are reminded of their right to request information at the shareholders' meeting pursuant to chapter 7 section 32 of the Swedish Companies Act (Sw. aktiebolagslagen (2005:551)).

Meeting documents

Accounting documents, the complete proposals pursuant to items 12-13 and other documents before the annual shareholders' meeting will be available at the company's office at Styrmansgatan 2, SE-211 18 Malmö, Sweden and at the company's website (ir.polygiene.com) as from no later than three weeks before the annual shareholders' meeting, and will also be sent to shareholders who request it and state their address. Copies of the documents will also be available at the annual shareholders' meeting.

Number of shares and votes in the company

As of the date of this notice to attend the annual shareholders' meeting, the total number of shares and votes in the company amounts to 36,526,989. The company does not hold any own shares.

Such ownership engagement is expected to stimulate the employees and consultants in the Company to an increased interest for the business and the earnings trend as well as to increase the feeling of connectedness with the Company.

Costs, dilution and existing incentive programs etc.

Since the warrants in the Warrants Program 2024/2027 will be transferred to the participants at the fair market value, the Company's assessment is that the Company will not incur any social costs in relation to Warrants Program 2024/2027. The costs related to Warrants Program 2024/2027 will hence only be composed of limited costs for implementation and administration of the program.

Per the date of the notice, the number of shares in the Company amounts to 36,526,989.

In case all warrants issued within the Warrants Program 2024/2027 are utilized for subscription of new shares, a total of 300,000 new shares will be issued, which corresponds to a dilution of approximately 0.81 per cent of the Company's share capital and votes after full dilution, calculated on the number of shares that will be added upon full utilization of all warrants issued under the Warrants Program 2024/2027. The dilution would only have had a marginal impact on the key figure earnings per share for the full year 2023.

There are currently incentive programs in the form of three warrants programs outstanding in the Company pursuant to which in the aggregate 900,000 new shares may be issued. If all existing incentive programs that are outstanding and the proposed Warrants Program 2024/2027 are exercised in full, in the aggregate 1,200,000 shares will be issued, which corresponds to a dilution of approximately 3.18 per cent of the Company's share capital and votes after full dilution, calculated on the number of shares that will be added upon full exercise of all outstanding incentive program and the proposed Warrants Program 2024/2027.

The above calculations regarding dilution are subject to re-calculation of the warrants in accordance with the customary recalculation terms included in the applicable warrant terms.

Preparation of the proposal

The proposal of the Warrants Program 2024/2027 has been prepared by the board of directors together with external consultants.

Majority requirement

The board of directors' proposal in accordance with Sections A-B above shall be resolved upon as one resolution by the annual shareholders' meeting. A valid resolution requires that the proposal is supported by shareholders with at least nine-tenths of the votes cast as well as of all shares represented at the meeting.

The Chairman of the board of directors shall be authorized to make minor formal adjustments of the resolution which may be required for registration with the Swedish Companies Registration Office (Sw. Bolagsverket) or Euroclear Sweden AB.

The warrants shall be registered by Euroclear in a securities register pursuant to the Swedish Act on Account Keeping of Financial Instruments (Sw. lagen (1998:1479) om värdepapperscentraler och kontoföring av finansiella instrument). Thus, no physical warrant certificates will be issued, or, if the board of directors so resolves, be represented by warrant certificates issued to a certain person.

If the warrants are registered in a securities register, the warrants will be registered on behalf of the warrant holders on their respective securities accounts. Registrations relating to the warrants in connection with measures pursuant to Clauses 6, 8 or 11 below will be effected by the bank. A warrant holder’s request for other registration shall be made to the account keeping institute with which the warrant holder has opened its securities account.

The company undertakes to effectuate subscription in accordance with these terms and conditions.

3. Right to subscribe for new shares

Each warrant entitles the warrant holder to subscribe for one new share in the company at a subscription price per share which corresponds to 200 per cent of the volume weighted average price according to Nasdaq First North Growth Market’s official price list for shares in the company during the period as from 17 May 2024 to and including 27 May 2024. However, the subscription price cannot be less than the share's quota value. The subscription price shall be rounded to the nearest whole öre, whereupon 0.5 öre shall be rounded upwards. The amount that exceeds the share quotient value shall be added to the free share premium reserve.

The subscription price as well as the number of shares that each warrant confers right to subscribe for can be subject to adjustment in accordance with the provisions of Clause 8 below. If the application of these provisions should result in a subscription price lower than the quotient value at that time of the then outstanding shares, the subscription price shall instead equal the quotient value at that time of the then outstanding shares.

4. Subscription

Subscription can only be made during the time period as from 1 June 2027 up to and including 30 June 2027.

The subscription period can be brought forward or postponed in accordance with the provisions of Clause 8 below.

Subscription may only be made for the whole number of shares that the total number of warrants, which are exercised by the same warrant holder at one and the same time, confer the right to subscribe for.

Subscription is made by submitting an application form (subscription list) in the form stipulated and provided by the company and the bank, duly completed and signed, to the bank at the address specified in the application form.

Should such application form (subscription list) not have been received by the bank within the subscription period, the warrants shall lapse.

Subscription is binding and may not be revoked.

5. Payment

Payment for the number of shares for which the subscription relates shall be made simultaneously with the subscription. The payment shall be made in cash to the bank account specified in the application form (subscription list).

6. Effectuation of subscription

Subscription is effected once subscription and payment has been made in accordance with Clauses 4 and 5 above. Any fractions of warrants that may not be exercised for subscription pursuant to the third paragraph of Clause 4 above will then be disregarded. Such fractions shall lapse upon subscription.

Subscription is effected through a resolution of the board of directors of the company to allot the new shares to the warrant holder, where after the new shares are recorded in the company's share ledger (which is kept by Euroclear) and on the warrant holder's securities account as interim shares. Following completion of registration with the Swedish Companies Registration Office (*Sw. Bolagsverket*), the recordings of the new shares in the share ledger and on the securities account become final.

As stated in Clause 8 below, subscription may in certain cases be effected only after a certain date, and with the application of a recalculated subscription price and a recalculated number of shares that each warrant confers the right to subscribe for.

7. Dividends on new shares

A share issued after subscription confers the right to dividend the first time on the record date for dividends that occurs immediately following effectuation of subscription to such extent that the share has been recorded in the company's share ledger as interim share.

8. Recalculation of subscription price and number of shares, etc.

8.1 Bonus issue

If the company effects a bonus issue, subscription made at such date that it can not be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the tenth calendar day prior to the shareholders' meeting to consider the bonus issue at the latest shall be effected after the resolution on the issue of the shareholders' meeting.

Shares issued pursuant to subscription effected after the issue resolution do not confer the right to participate in the bonus issue.

If the bonus issue is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers the right to subscribe for shall apply to subscription effected after the issue resolution. The recalculations shall be made by the company in accordance with the following formulas:

$$\text{(recalculated subscription price)} = \text{(previous subscription price)} \times \text{(the number of shares in the company prior to the bonus issue)} / \text{(the number of shares in the company after the bonus issue)}$$

$$\text{(recalculated number of shares that each warrant confers right to subscribe for)} = \text{(the previous number of shares that each warrant confers right to subscribe for)} \times \text{(the number of shares in the company after the bonus issue)} / \text{(the number of shares in the company prior to the bonus issue)}$$

When recalculation shall be made as mentioned above, the recalculated subscription price and the recalculated number of shares that each warrant confers the right to subscribe for shall be fixed by the company two banking days after the issue resolution at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the record date of the bonus issue. Prior thereto, such shares are recorded only provisionally in the share ledger and on securities accounts and do not confer the right to participate in the bonus issue.

8.2 Consolidation or split-up

If the company effects a consolidation or split-up of its shares, subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the tenth calendar day prior to the shareholders' meeting to consider the consolidation or split-up at the latest shall be effected after the resolution on the consolidation or split-up of the shareholders' meeting.

Shares issued pursuant to subscription effected after the consolidation or split-up resolution are not affected by the consolidation or split-up.

If the consolidation or split-up is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers the right to subscribe for shall apply to subscription effected after the consolidation or split-up resolution. The recalculations shall be made by the company in accordance with the following formulas:

$$\text{(recalculated subscription price)} = \text{(previous subscription price)} \times \text{(the number of shares in the company prior to the consolidation or split-up)} / \text{(the number of shares in the company after the consolidation or split-up)}$$

$$\text{(recalculated number of shares that each warrant confers right to subscribe for)} = \text{(the previous number of shares that each warrant confers right to subscribe for)} \times \text{(the number of shares in the company after the consolidation or split-up)} / \text{(the number of shares in the company prior to the consolidation or split-up)}$$

When recalculation shall be made as mentioned above, the recalculated subscription price and the recalculated number of shares that each warrant the confers right to subscribe for shall be fixed by the company at the latest two banking days after the consolidation or split-up resolution, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the consolidation or split-up having been registered with Euroclear. Prior thereto, such shares are recorded only provisionally in the share ledger and on securities accounts and are not affected by the consolidation or split-up.

8.3 New issue of shares

If the company effects a new issue of shares with preferential rights for the share-holders to subscribe for the new shares against cash payment or payment by way of set-off, the following shall apply as regards effectuation of subscription and the right to participate in the issue conferred by shares issued pursuant to subscription:

- (a) If the issue is resolved by the board of directors subject to the approval of the shareholders' meeting or pursuant to prior authorisation by the shareholders' meeting, then the latest date on which subscription shall have been effected in order for a share issued pursuant to subscription to confer the right to participate in the issue shall be stated in the issue resolution. Subscription made at such date that it can not be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger at the latest on the said date shall be effected after that date.
 Shares issued pursuant to subscription effected after the above-mentioned date do not confer the right to participate in the new issue.
- (b) If the issue is resolved by the shareholders' meeting, then subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger at the latest on the tenth calendar day prior to the shareholders' meeting to consider the issue shall be effected after the resolution on the issue of the shareholders' meeting.
 Shares issued pursuant to subscription effected after the issue resolution do not confer the right to participate in the new issue.

If the new issue is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected at such date, that shares issued pursuant to such subscription do not confer right to participate in the new issue. The recalculations shall be made by the company in accordance with the following formulas:

$$\text{(recalculated subscription price)} = \text{(previous subscription price)} \times \left(\frac{\text{(the average market price of the share during the subscription period fixed pursuant to the issue resolution ("the average share price"))}}{\text{(the average share price)} + \text{(the theoretical value of the subscription right ("the value of the subscription right"))}} \right)$$

$$\text{(recalculated number of shares that each warrant confers right to subscribe for)} = \left(\frac{\text{(the previous number of shares that each warrant confers right to subscribe for)} \times \text{(the average price of the share)} + \text{(the value of the subscription right)}}{\text{(the average share price)}} \right)$$

The average share price shall correspond to the volume-weighted average price of the company's share during the subscription period determined in accordance with the issue resolution according to the price list on which the share is primarily listed.

The value of the subscription right shall be calculated in accordance with the following formula, provided that the value of the subscription right shall be deemed to be zero if the resulting value is negative:

$$\text{(the value of the subscription right)} = \left(\frac{\text{(the maximum number of new shares that can be issued according to the issue resolution)} \times \text{(the average share price)} - \text{(the subscription price for each new share)}}{\text{(the number of shares in the company prior to the new issue)}} \right)$$

When recalculation shall be made as mentioned above, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the subscription period fixed pursuant to the issue resolution at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the recalculations having been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to participate in the issue.

8.4 Issue of warrants or convertibles

If the company effects an issue of warrants (share options) or convertibles with preferential rights for the shareholders to subscribe for such warrants or convertibles against cash payment or payment by way of set-off or, as regards warrants, without payment, the provisions of (a) and (b) of the first paragraph of Clause 8.3 above shall apply analogously as regards effectuation of subscription and the right to participate in the issue conferred by shares issued pursuant to subscription.

If the issue is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected at such date, that shares issued pursuant to such subscription do not confer right to participate in the issue. The recalculations shall be made by the company in accordance with the following formulas:

$$\text{(recalculated subscription price)} = \text{(previous subscription price)} \times \text{(the average market price of the share during the subscription period fixed pursuant to the issue resolution ("the average share price"))} / \text{((the average share price) + (the theoretical value of the subscription right ("the value of the subscription right"))}$$

$$\text{(recalculated number of shares that each warrant confers right to subscribe for)} = \text{(the previous number of shares that each warrant confers right to subscribe for)} \times \text{((the average share price) + (the value of the subscription right))} / \text{(the average share price)}$$

The average share price shall be calculated with analogous application of the provisions of Clause 8.3 above.

If the subscription right is subject to market quotation, the value of the subscription right shall be deemed to equal the average of the mean of the highest and lowest prices paid for the subscription right each trading day during the subscription period fixed pursuant to the issue resolution according to the exchange list on which the subscription right is primarily quoted. In the absence of quoted price paid, the quoted bid price shall be included in the calculation instead. If neither paid price nor bid price is quoted on a given day, that day shall be excluded from the calculation.

If the subscription right is not subject to market quotation, the value of the subscription right shall be determined based upon the change in the market value of the company's shares which may be deemed to have occurred as a consequence of the issue.

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the subscription period fixed pursuant to the issue resolution at the latest, and final registration in the share ledger and on securities

accounts of shares issued pursuant to subscription will be made after the recalculations having been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to participate in the issue.

8.5 Certain other offers to the shareholders

If the company in other cases than those contemplated by Clauses 8.1–8.4 above (i) effects an offer to the shareholders, with preferential rights for the shareholders according to the principles of Chap. 13 Sec. 1 paragraph 1 of the Companies Act, to purchase any securities or rights from the company, or (ii) distributes to the shareholders, pursuant to such preferential right, any such securities or rights, (in both cases “the offer”), the provisions of (a) and (b) of the first paragraph of Clause 8.3 shall apply analogously as regards effectuation of subscription and the right to participate in the offer conferred by shares issued pursuant to subscription.

If the offer is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected at such date, that shares issued pursuant to such subscription do not confer right to participate in the offer. The recalculations shall be made by the company in accordance with the following formulas:

$$\begin{aligned} \text{(recalculated subscription price)} &= \text{(previous subscription price)} \times \text{(the average market price of the} \\ &\text{share during the acceptance period of the offer or, in case of distribution, during the period of 25} \\ &\text{trading days starting on the day on which the share is quoted without right to any part of the} \\ &\text{distribution (“the average share price”))} / ((\text{the average share price}) + \text{(the theoretical value of the} \\ &\text{right to participate in the offer (“the value of the purchase right”)))} \\ \\ \text{(recalculated number of shares that each warrant confers right to subscribe for)} &= \text{(the previous} \\ &\text{number of shares that each warrant confers right to subscribe for)} \times ((\text{the average share price}) + \\ &\text{(the value of the purchase right)}) / \text{(the average share price)} \end{aligned}$$

The average share price shall be calculated with analogous application of the provisions of Clause 8.3 above.

If the shareholders receive purchase rights and these are subject to market quotation, the value of the purchase right shall be deemed to equal the average of the mean of the highest and lowest prices paid for the purchase right each trading day during the acceptance period of the offer according to the exchange list on which the purchase right is primarily quoted. In the absence of quoted price paid, the quoted bid price shall be included in the calculation instead. If neither paid price nor bid price is quoted on a given day, that day shall be excluded from the calculation.

If the shareholders do not receive any purchase rights, or if the purchase rights are not subject to market quotation, but the securities or rights being the subject of the offer either are already subject to market quotation or become subject to market quotation in connection with the offer, the value of the purchase right shall be deemed to equal (i) if the securities or rights are already subject to market quotation, the average of the mean of the highest and lowest prices paid for such security or right each trading day during the acceptance period of the offer or, in case of distribution, during the period of 25 trading days starting on the day on which the share is quoted without right to any part of the distribution according to the exchange list on which the security or right is primarily quoted, less any consideration payable for them in connection with

the offer, or (ii) if the securities or rights become subject to market quotation in connection with the offer, the average of the mean of the highest and lowest prices paid for such security or right each trading day during the period of 25 trading days starting on the first day of such market quotation according to the exchange list on which the security or right is primarily quoted, when applicable, reduced with the consideration paid for these in connection with the offer. In the absence of quoted price paid, the quoted bid price shall be included in the calculation instead. If neither paid price nor bid price is quoted on a given day, that day shall be excluded from the calculation. When the value of the purchase right shall be determined pursuant to (ii) of this paragraph, then in the recalculation of the subscription price and the number of shares that each warrant confers right to subscribe for in accordance with the above formulas the average share price shall relate to the 25-trading day period mentioned in (ii) of this paragraph instead of the period mentioned in the above formulas.

If the shareholders do not receive any purchase rights, or if the purchase rights are not subject to market quotation, and the securities or rights being the subject of the offer neither already are subject to market quotation nor become subject to market quotation in connection with the offer, the value of the purchase right shall to the extent possible be determined based upon the change in the market value of the company's shares which may be deemed to have occurred as a consequence of the offer.

When recalculation shall be made as mentioned above, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the period during which the average share price shall be calculated for the above recalculations at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the recalculations having been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to participate in the offer.

8.6 Equal treatment of warrant holders and shareholders

If the company effects a measure contemplated by Clauses 8.3–8.5 above, the company may, in its sole discretion, offer all the warrant holders the same preferential right as the shareholders to participate in the issue or offer. In such a case, notwithstanding that subscription has not been made or effected, each warrant holder shall be deemed to be the owner of such number of shares as the warrant holder would have received if subscription would have been made and effected according to the subscription price and the number of shares that each warrant confers right to subscribe for that would have applied if subscription would have been effected at such date, that shares issued pursuant to such subscription would have conferred right to participate in the relevant issue or offer.

If the company offers the warrant holders preferential right according to the previous paragraph, no recalculation of the subscription price or the number of shares that each warrant confers right to subscribe for shall be made pursuant to Clauses 8.3-8.5 above or Clause 8.9 below in connection with the issue or offer.

8.7 Dividend

If the company pays cash dividends to the shareholders, then subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the tenth calendar day prior to the shareholders' meeting to consider the dividends at the latest shall be effected after the resolution on the dividends of the shareholders' meeting.

Shares issued pursuant to subscription effected after the dividend resolution do not confer right to receive any part of the dividend.

If the payment of the dividends is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected at such date, that shares issued pursuant to such subscription do not confer right to receive any part of the dividends. The recalculations shall be made by the company in accordance with the following formulas:

$$\text{(recalculated subscription price)} = \text{(previous subscription price)} \times \text{(the average market price of the share during the period of 2 trading days starting on the day on which the share is quoted without right to the dividend ("the average share price"))} / \text{((the average share price) + (the dividend paid per share))}$$

$$\text{(recalculated number of shares that each warrant confers right to subscribe for)} = \text{(the previous number of shares that each warrant confers right to subscribe for)} \times \text{((the average share price) + (the dividend paid per share))} / \text{(the average share price)}$$

The average share price shall be calculated with analogous application of the provisions of Clause 8.3 above.

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the above-mentioned 2-trading day period at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the recalculations having been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to participate in the offer.

8.8 Reduction of the share capital etc.

If the company effects a reduction of its share capital with repayment to the shareholders (with or without redemption of shares), and such reduction is compulsory, then subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the tenth calendar day prior to the shareholders' meeting to consider the reduction at the latest shall be effected only after the resolution on the reduction of the shareholders' meeting.

Shares issued pursuant to subscription effected after the reduction resolution do not confer right to receive any part of the repayment and are not affected by the redemption (if any).

If the reduction is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected after

the reduction resolution. The recalculations shall be made by the company in accordance with the following formulas:

$$\text{(recalculated subscription price)} = \text{(previous subscription price)} \times \text{(the average market price of the share during the period of 25 trading days starting on the day on which the share is quoted without right to repayment ("the average share price"))} / \text{((the average share price) + (the actual amount repaid per share))}$$

$$\text{(recalculated number of shares that each warrant confers right to subscribe for)} = \text{(the previous number of shares that each warrant confers right to subscribe for)} \times \text{((the average share price) + (the actual amount repaid per share))} / \text{(the average share price)}$$

If the reduction is carried out through redemption of shares, then instead of using the actual amount repaid per share in the above-mentioned recalculation of the subscription price and the number of shares each warrant confers right to subscribe for, a calculated amount repaid per share determined as follows shall be applied:

$$\text{(calculated amount repaid per share)} = \text{((the actual amount repaid per share) – (the average market price of the share during the period of 25 trading days immediately preceding the day on which the share is quoted without right to participate in the reduction ("the average share price")))} / \text{((the number of shares in the company which entitle to the reduction of one share) – 1)}$$

The average share price shall be calculated with analogous application of the provisions of Clause 8.3 above.

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the latest 25-trading days period applicable for the above recalculations to occur at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the recalculations having been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to receive any amount of the repayment nor affected by the redemption (if any).

If the company effects (i) a reduction of its share capital with repayment to the shareholders through redemption of shares, and such reduction is not compulsory, or (ii) a re-purchase of shares in the company (without effecting a reduction of its share capital), and where, in the opinion of the company, such reduction or re-purchase due to its technical structure and financial effects is equivalent to a compulsory reduction, the above provisions in this Clause 8.8 shall apply and a recalculation of the subscription price and the number of shares to which each warrant confers right to subscribe for shall be made, to the extent possible, in accordance with the principles set forth in this Clause 8.8.

8.9 Recalculations if the company's shares are not subject to market quotation

8.9.1 If the company effects a measure contemplated by Clauses 8.3–8.5, 8.7 or 8.8 above or Clause 8.14 below and none of the company's shares are subject to market quotation at the time of such measure, the said provisions shall apply, provided that the recalculation of the subscription price and number of shares that each warrant confers right to subscribe for shall be made at the company's sole discretion by the company, to the extent possible, in accordance with the

principles set forth in such Clause 8.3–8.5 or 8.8 above or 8.14 as is applicable and based on the assumption that the value of the warrants shall be left unchanged.

- 8.9.2 If none of the company's shares are subject to market quotation, the following shall apply instead of the provisions of Clause 8.7 above. If the company pays cash dividends to the shareholders in an amount that, together with other cash dividends paid during the same financial year, exceeds fifty percent of the company's profit after tax according to its adopted income statement or, when applicable, consolidated income statement for the financial year immediately preceding the year in which the resolution to pay the dividend was adopted, then subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the tenth calendar day prior to the shareholders' meeting to consider the dividends at the latest shall be effected after the resolution on the dividends of the shareholders' meeting. Shares issued pursuant to subscription effected after the dividend resolution do not confer right to receive any part of the dividend.

If the payment of the dividends is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected at such date, that shares issued pursuant to such subscription do not confer right to receive any part of the dividends. The recalculations shall be based on the part of the total cash dividends per share which in aggregate exceeds fifty percent of the company's above-mentioned profits after tax (the "extraordinary dividend") and shall be made at the company's sole discretion by the company, to the extent possible, in accordance with the principles set forth in such Clause 8.7 above and based on the assumption that the value of the warrants shall be left unchanged.

8.10 Alternative recalculation method

If the company effects any measure contemplated by Clauses 8.1– 8.5 or 8.7 – 8.8 above or Clause 8.14 below and if, in the company's opinion, application of the recalculation formulas established for such measure, taking into account the technical framework of such measure or other reasons, could not be made or would result in the warrant holders receiving, in relation to the shareholders, economic compensation that is not reasonable, the company shall make the recalculation of the subscription price and the number of shares to which each warrant confers right to subscribe for in such a manner as the company determines is appropriate to ensure that the recalculation gives a reasonable result.

8.11 Rounding off

In the recalculation of the subscription price and the number of shares that each warrant confers right to subscribe for in accordance with this Clause 8, the subscription price shall be rounded to the nearest whole one-hundred of a Swedish krona (SEK 0.01) where any SEK 0.005 shall be rounded upwards, and the number of shares shall be rounded to two decimals.

8.12 Compulsory acquisition

If shares in the company become subject to compulsory acquisition proceedings, the right to subscribe and to have subscription effected is regulated by the provisions of Chap. 22 of the Companies Act.

8.13 Merger

If (i) the shareholders' meeting resolves to approve a merger plan pursuant to which the company shall dissolve into another company or (ii) the board of directors of the company resolves that the company shall dissolve into its parent company, no subscription may thereafter be made or effected. The right to subscribe and the obligation to effect subscriptions ceases with the resolution of the shareholders' meeting or with the resolution of the board of directors, as applicable.

If the merger is not carried through, subscription may again be made and effected in accordance with these terms and conditions.

No later than 60 calendar days prior to the shareholders' meeting to consider the approval of a merger plan or the board meeting to consider the company's dissolution into its parent company, as appropriate, the warrant holders shall be notified of the contemplated merger. The notice shall contain a reminder of that no subscription may be made or effected after that the shareholders' meeting having resolved to approve the merger plan or the board of directors having resolved that the company shall dissolve into its parent company, as appropriate, and also a reminder of that the subscription period is brought forward in accordance with the first paragraph below.

Notwithstanding the provisions in Clause 4 above concerning subscription period, the warrant holders have the right to subscribe and to have subscriptions effected from the date of the notice referred to in the previous paragraph, provided that such subscription can be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger no later than the day before the shareholders' meeting to consider the approval of the merger plan or the board meeting to consider the company's dissolution into its parent company, as appropriate.

8.14 De-merger

8.14.1 If the shareholders' meeting resolves to approve a de-merger plan pursuant to which the company shall be divided through transfer of only certain of the company's assets and liabilities to one or several other companies, then subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the tenth calendar day prior to the shareholders' meeting to consider the approval of the de-merger plan at the latest shall be effected after the resolution on the approval of the de-merger plan of the shareholders' meeting. Shares issued pursuant to subscription effected after the resolution on the approval of the de-merger plan do not confer right to receive any part of the de-merger contribution.

If the de-merger plan is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected after the resolution on the approval of the de-merger plan. The recalculations shall be made by the company in accordance with the following formulas:

$$\begin{aligned} & \text{(recalculated subscription price)} = \text{(previous subscription price)} \times \text{(the average market price of the} \\ & \text{share during the period of 25 trading days starting on the day on which the share is quoted} \\ & \text{without right to de-merger consideration ("the average share price"))} / \text{((the average share price)} \\ & \text{+ (the value of the de-merger consideration paid per share))} \end{aligned}$$

$$(recalculated\ number\ of\ shares\ that\ each\ warrant\ confers\ right\ to\ subscribe\ for) = (the\ previous\ number\ of\ shares\ that\ each\ warrant\ confers\ right\ to\ subscribe\ for) \times ((the\ average\ share\ price) + (the\ value\ of\ the\ de-merger\ consideration\ paid\ per\ share)) / (the\ average\ share\ price)$$

The average share price shall be calculated with analogous application of the provisions of Clause 8.3 above.

To the extent the de-merger consideration consists of shares or other securities that are subject to market quotation in connection with the de-merger, the value of the de-merger consideration shall be deemed to equal the average of the mean of the highest and lowest prices paid for such shares or other securities each trading day during the above-mentioned 25-trading day period according to the exchange list on which such shares or others securities are primarily quoted. In the absence of quoted price paid, the quoted bid price shall be included in the calculation instead. If neither paid price nor bid price is quoted on a given day, that day shall be excluded from the calculation.

To the extent the de-merger consideration consists of shares or other securities that are not subject to market quotation, but such shares or other securities become subject to market quotation in connection with the de-merger, the value of the de-merger consideration shall be deemed to equal the average of the mean of the highest and lowest prices paid for such shares or other security each trading day during the 25-trading day period starting on the first day of such market quotation according to the exchange list on which the share or other security is primarily quoted. In the absence of quoted price paid, the quoted bid price shall be included in the calculation instead. If neither paid price nor bid price is quoted on a given day, that day shall be excluded from the calculation. When the value of any portion of the de-merger consideration shall be determined pursuant to this paragraph, then in the recalculation of the subscription price and the number of shares that each warrant confers right to subscribe for in accordance with the above formulas the average share price shall relate to the 25-trading day period mentioned in this paragraph instead of the period mentioned in the above formulas.

To the extent the de-merger consideration consists of shares or other securities that are not subject to market quotation, and these shares or other securities do not be-come subject to market quotation in connection with the de-merger, the value of the de-merger consideration shall to the extent possible be determined based upon the change in the market value of the company's shares which, according to an independent valuer retained by the company, may be deemed to have occurred as a consequence of the de-merger.

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the 25-trading day period during which the average market price of the share shall be calculated for the above recalculations at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the recalculations having been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to receive any part of the de-merger consideration.

- 8.14.2 If the shareholders' meeting resolves to approve a de-merger plan pursuant to which the company shall be divided through transfer of all of the company's assets and liabilities to two or

more other companies, no subscription may thereafter be made or effected. The right to subscribe and the obligation to effect subscriptions ceases with the resolution of the shareholders' meeting.

If the de-merger is not carried through, subscription may again be made and effected in accordance with these terms and conditions.

No later than 60 calendar days prior to the shareholders' meeting to consider the approval of a de-merger plan, the warrant holders shall be notified of the contemplated de-merger. The notice shall contain a reminder of that no subscription may be made or effected after that the shareholders' meeting having resolved to approve the de-merger plan and also a reminder of that the subscription period is brought forward in accordance with the first paragraph below.

Notwithstanding the provisions in Clause 4 above concerning subscription period, the warrant holders have the right to subscribe and to have subscription effected from the date of the above-mentioned notice, provided that such subscription can be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger no later than the day before the shareholders' meeting to consider the approval of the de-merger plan.

8.15 Winding-up

If it is resolved that the company shall be wound-up, no subscription may thereafter be made or effected. The right to subscribe and the obligation to effect subscription ceases with the winding-up resolution, regardless of the grounds for the resolution and whether the same shall have gained legal force.

If the winding-up is not carried through, subscription may again be made and effected in accordance with these terms and conditions.

No later than 30 calendar days prior to the shareholders' meeting to consider a voluntary winding-up pursuant to Chap. 25 Sec. 1 of the Companies Act, the warrant holders shall be notified of the contemplated winding-up. The notice shall contain a reminder of that no subscription may be made or effected after that the shareholders' meeting having resolved that the company shall be wound-up and also a reminder of that the subscription period is brought forward in accordance with the first paragraph below.

Notwithstanding the provisions in Clause 4 above concerning subscription period, the warrant holders have the right to subscribe and to have subscriptions effected from the date of the above-mentioned notice, provided that such subscription can be effected to such extent that shares issued pursuant to the subscription can be re-corded as interim shares in the company's share ledger no later than the day before the shareholders' meeting to consider the winding-up.

8.16 Bankruptcy

If a court of law declares the company bankrupt, no subscription may thereafter be made or effected. The right to subscribe and the obligation to effect subscription ceases with the bankruptcy order, regardless of the grounds for the order and whether the same shall have gained legal force.

If the bankruptcy order is revoked, subscription may again be made and effected in accordance with these terms and conditions.
